

End-to-end patient support for CREXONT® in one centralized platform

How it works:

Located within your CoverMyMeds account, you can access integrated patient support resources following the prescription along your patients treatment journey — helping to consolidate processes and access for patients prescribed CREXONT® (carbidopa and levodopa) extended-release capsules

Patient Services are Available for CREXONT® (carbidopa and levodopa)

Select the action you would like to take

CREXONT® (carbidopa and levodopa) Amneal Patient Assistance Form [Start Enrollment](#)
Enroll your patient into Bridge and/or Patient Assistance Program.

Prior Authorization [Start PA](#)
Initiate a prior authorization for your patient.

Benefits Verification [Check Benefits](#)
Instantly learn more about your patient's coverage details.

Now with CoverMyMeds, you can electronically:

- Submit an application for patients to the Amneal Patient Assistance Program*
- Perform benefits verification (BV)
- Submit prior authorization requests and receive technical support for formulary exceptions and appeals
- Track patient case status
- Provide the patient with up to a 30-day bridge supply of CREXONT while prior authorization is being reviewed by the patient's insurance, at no cost

*Subject to eligibility requirements.
